* Rosy Reds are basically orange colored Tuffies

ORDERING

Most gamefish species are only available in the spring and fall. Some can only be handled early in the season and some late. So, to coordinate harvesting and shipping of fish, we ask that spring orders are placed by May 1st and fall orders by October 1st. Later orders may be accommodated if we are able, but they will not receive first priority and may be subject to increased delivery charges.

FISH DELIVERY (By State and County)

Deliver rates quoted below are good if you are receiving fish delivery when our truck is going through area. In the farther reaches, this might only be once per season meaning a larger delivery cost. The hatchery will call 2 days ahead of delivery and give a rough time of day for delivery. Special delivery rates apply for deliveries requiring specific timeframe, if pond is more than 300' from solid drive AND customer cannot provide off-road vehicle, stockings that take an excessive amount of time, larger stockings over 400 lbs of fish that are more than 50' from solid drive, **and all orders placed AFTER May 1st and October 1st.**
